Commissioner Jane E. Henney
FDA

Dear Ms. Henney,

As I am sure you are aware, the overuse of antibiotics in our society is making bacteria resistant to those antibiotics. As part of the solution to this problem, I urge you to ban the use of medically useful antibiotics in animal feed. If we continue on the road we're on, someday our very lives will be at stake. If bacteria continue to become resistant, there will be no way to treat life-threatening bacterial infections. For this reason, I support the petition filed by CSPI.

Sincerely,
Sandy Bell
